Dear CoE-MaSS Researcher

Re: CoE-MaSS 2023 Seminar Series

As you may be aware, the DSI-NRF Centre of Excellence in Mathematical and Statistical Sciences (CoE-MaSS) currently runs a weekly seminar series. These take place on a **Friday from 10h30-11h30** each week from February to October. These seminars are broadcast via our Zoom broadcasting facility so that they can be accessed by any researcher around the country.

We invite researchers working across the 12 CoE-MaSS Focus Areas to present a **45-minute seminar, followed by a 15-minute question-and-answer session**, as part of this series. As such, we would like to request you, in your capacity as a CoE-MaSS researcher, to please contribute to this Seminar Series by giving a seminar in 2023.

Your seminar can be focus on either:

- a research niche topic, or
- a popular area of interest.

Please be aware that attendance will vary according to the chosen topic area.

We will be hosting seminars via the Zoom broadcasting/recording platform, and you can connect from a setup as simple as your internet-connected desktop/laptop with a webcam and microphone. You will need to organise a test run with our audiovisual team by no later than the Wednesday of the seminar week. Once you have confirmed your attendance, we will provide you with the necessary contact details.

Please complete the attached Expression of Interest form with the relevant details. Should you require any further information or have any other queries about the Seminar Series, please do not hesitate to contact Diane (diane.dowejko@wits.ac.za ; 011 717 6165) for further assistance.

Please

Kind regards

Diane Dowejko

CoE-MaSS Research Administrator (Communications and Events)
