

## Fellowship of Christian University Students (FOCUS)

FOCUS is the ministry of a partnership of Reformed, evangelical churches in Johannesburg and beyond. Our mission is to make and mature followers of Jesus on university campuses for the glory of God through the local church.

The main activities of FOCUS include weekly Bible studies, game nights with members of FOCUS from other universities and tertiary institutions, as well as Engage which is an event where we discuss current social, cultural, and political issues from a biblical perspective through the exposition of the Bible.

We seek to equip the church to be the church on university campuses – living as communities of witnesses who speak boldly of Christ. Our ministry is word-based and expository in character and is focused on evangelism (making disciples) and training (maturing disciples).

Our motto sums up what we do: seek the lost, train the found, send the trained.
