

## THE AMAZAYONI STUDENTS FELLOWSHIP

### Mission Statement

The mission of the Amazayoni Student Fellowship shall be to empower Amazayoni and to encourage the growth of the church by fighting secularization. We aim to encourage students to stay in the church so that they will live to inspire and make the church better. We as ASF join together as students to do the work that Jesus commissioned us to do. We are a group of students aiming for excellence in every area of life. We believe that God wants to help, bless and change people's lives. We are determined to bring the truth to all communities for the liberation of the souls by spreading the gospel of salvation.

### Vision

Statement Proclaiming the Gospel of Jesus Christ to people.

Amazayoni Student Fellowship is a student religious society.

This is a society for students by students. Basically Amazayoni are Christians. They are subject to Christian moral standards and practices. Even though the objective is one, but we differ very much from other Christian churches. We differ in the way we sing and there are some other practices adopted by the church that other churches don't do, for example ukuzungeza.
